To Whom it May Concern,

CheckPoint Pumps & Systems authorize M/S “**Oil Group Construction LLP**” to market and sale Checkpoint’s products and we will give them our full technical support for our products in the Kazakhstan.

CheckPoint Pumps & Systems is a leading manufacturer of chemical injection Pumps and Packages supplying all over the world since 1993 through our HQ in the US and our regional facilities in Dubai, UK & Singapore. We provide services including; Design, Manufacture and Supply of complete chemical injection solutions ranging right from single basic pneumatic or electric metering pumps through to complete controlled automated dosing systems including solar powered systems. The majority of our products are available on either a purchase or lease basis depending on our client’s needs. We also provided Control & Shutdown (ESD) Panels, Pressure Test Units, Process Gas & Water treatment packages, and green energy solutions.

#### **Chemical Injection Pumps & Spare Parts**

CheckPoint manufactures a selection of Pneumatic, Electric, and Solar chemical injection pumps with a wide variety of capabilities to meet today’s most demanding requirements for Oil & Gas, Water and Waste Water treatment. CheckPoint’s positive displacement, reciprocating chemical injection pumps are specially designed for, and extensively proven in, demanding oil and gas production applications worldwide. Both the design and construction of this pump produce a perfect balance of quality, price, and long-term cost of ownership.

#### **Chemical Injection Packages**

CheckPoint can develop a customized chemical injection packages, adapted for client’s specific requirements and specifications. CheckPoint will create a solution that meets your specific chemical injection needs, from concept to completion.

In Additional to that, we recommend our standard “Plug & Play” injection packages as an optimum solution to efficiently and e effectively integrate chemical injection into your process. CheckPoint has engineered, manufactured, and sourced high-quality components which, combined in a package with our pumps, maximize product life and optimize productivity.

## Rentals

Our rental program is designed for quality, convenience, and versatility. We offer short and long-term equipment, complete technical assistance, and flexible rental periods. When developing a rental plan for our customers, we accommodate and consider all application requirements and parameters. CheckPoint locations maintain a full selection of pumps and packages, stocked and ready to go on a moment's notice. When an immediate chemical injection pump or system is needed for a quick turnaround, it can be provided on time to any location around the globe.

## Services

CheckPoint's technicians are always available to conduct on-site surveys, perform maintenance, and answer questions related to pumps, systems, and sites. CheckPoint also offers a repair and return service, in which the pump is fully restored by honing the cylinder and piston rod, heat-washing all parts, and replacing all seals, and returned to the customer completely refurbished. Our customers have access to our exchange program, which allows us to send a replacement pump immediately upon request, while the pump requiring service is on its way to our facility—a simple, yet effective way to reduce both cost and downtime.
